

## Incredible Ice

**Equipment:** salt, ice cubes, plate

**Activity** – Try to make the tallest ice tower!

### Instructions

- First, make a tray of ice cubes. You could use cake cases or similar, if you don't have an ice cube tray.
- Try balancing them to make a tower. You'll find it's very very tricky!
- Next, try sprinkling a little salt on the top of the first ice cube before you add the next. Wait a minute, then repeat.
- How high can you build your tower?
